Recommended **Minimum** System Requirements:

OS	Windows 7 or higher
RAM	Minimum 2GB but 4GB is preferred
Processor	Newest PentiumProcessor
Hard Drive	80GB available
Windows	Latest version of Microsoft .NET Framework/**must be current with windows updates**

Downloading EV+:

You must use Internet Explorer

1. Open Internet Explorer (below are instructions for IE 7 or IE 8)
2. Type the following address in the Internet Explorer web browser address bar or click on this link: ftp.eaglewindow.com
3. Click the Page button in the upper right corner of the browser and select Open FTP Site in Windows Explorer
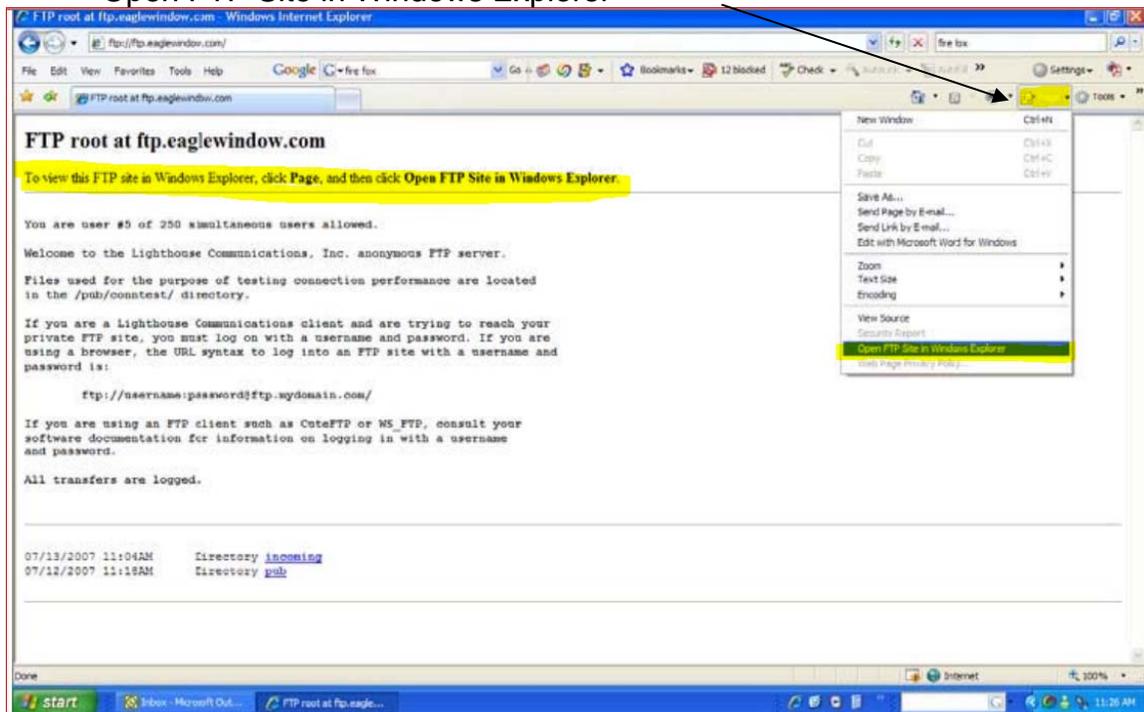

NOTE: Follow these procedures to "Open FTP Site in Windows Explorer" if using IE 9 or higher.

1. Right click in the empty space above the address bar in the browser
2. Select "Menu bar"
3. Click on the "View" menu
4. Select "Open FTP site in Windows Explorer"

Log into the FTP Site:
1. A new window will open. Right click in white space next to the incoming and pub folders then click "Login As"
2.   Enter the username and password listed below.
    • ftp username: **osr** <---------lowercase
    • ftp password: **osr** <---------lowercase
3. Open the EV Install English OS File folder
4.   Right click on the EagleVision install file.
5. Click on Copy to Folder (be sure Desktop is selected).
6.   Click OK.

NOTE: there are now install files for the French and Spanish Operating Systems

Installing Eaglevision:
1. Double-click on the EagleVision install file you downloaded to your desktop
2. Click on Open or Run
3. Choose all of the default answers.
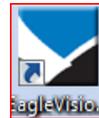

*When the installation is complete, the EagleVision icon will appear on your desktop. You are now ready to login and begin quoting.
